EDUCATION

University of Miami

July 2026

B.A. in Computer Science & Motion Pictures Screenwriting

Minor: Interactive Media

Relevant Coursework: Physical Computing, Wearable Technology, Data Structures & Algorithm Analysis

EXPERIENCE

The Miami Hurricane

December 2024 - May 2026

Staff Writer

Miami, FL

- Write articles on film, theater, and pop culture, applying research and narrative structure to produce clear, engaging content.
- Collaborate with a team of writers to pitch, refine, and develop story ideas under tight deadlines.
- Conduct interviews and gather source material to ensure accuracy and depth in published pieces.

Frost Science Museum

September 2025 - December 2025

Visual Developer

Miami, FL

- Designed and animated an immersive visual experience for a dome-format planetarium exhibition using Unity and Adobe Creative Cloud.
- Adapted the project into an animatic displayed in the museum's entry space, improving visitor engagement.
- Collaborated with museum staff to align visual storytelling with educational and thematic goals.

Violin Instructor

October 2023 - August 2024

Private Lesson Instructor

Miami, FL

- Teach individualized music lessons to students ages 14–16, adapting instruction to different learning styles.
- Develop structured lesson plans and track student progress over time.
- Communicate regularly with students and parents to set goals and provide feedback.

PROJECTS

Kinetic Plant Growth Installation

- Built an interactive diorama that simulates plant growth using a Circuit Playground Express to control servo-driven leaf movement.
- Programmed microcontroller logic and integrated NeoPixel lighting to create a responsive, immersive physical installation.

Study App (UX Case Study) - Figma

- Designed a mobile app that allows students to create, join, and manage study groups, with features aimed at reducing cognitive load and improving collaboration.
- Conducted user interviews, created wireframes, and built an interactive prototype supported by a full UX case study.
